

MHT HOLDING AG

Hochheim, Germany
November 9, 2018

Re.: MHT reinforces the Krones Group

Dear customers and business partners,

As you may have seen in the press, as of November 7, 2018 we have become a new member of the globally successful Krones Group (www.krones.com), headquartered in Neutraubling, Germany.

Under this umbrella, we will continue our operations as an independently acting specialist for PET preform tools for all kinds of machine platforms from our premises in Hochheim am Main. Your trusted contact persons will continue to be available to you.

In our ambition to maintain steady growth, we will now benefit from the strength of our new parent company and make use of its existing international structures. The innovative strength and technical expertise that have distinguished MHT since its founding in 1996 will receive additional opportunities to unleash their potential.

This will allow us to be an even more attractive partner for you, and we look forward to continuing on this path with you.

Kind regards,

Christian Wagner
Chief Executive Officer
